

AUTOMATION SPECIALISTS TO THE NUCLEAR INDUSTRY

Are you looking for an alternative supplier who can deliver successful projects on time and within budget? Then why not consider W H Good Automation Ltd...

Based in the North West, the automation division provide a control system integration service through the **Siemens Solution Partner Automation & Drives** and **Rockwell Automation Recognised System Integrator** programmes.

Over the past few years we have undertaken a number of capital projects for **James Fisher Nuclear**, **Nuvia**, **NNL**, **AMEC/SERCO** and **Westinghouse** to name a few, who benefited from our highly skilled and versatile workforce.

We also supply a wide range of process instrumentation as **ABB Instrumentation Alliance Partner** for the North West and areas of Yorkshire, including full site commissioning and calibration services. In addition, our electrical contracts division provide full installation services.

OUR NUCLEAR CAPABILITIES

- Control panel and MCC manufacturer
